About the Playwicki Farm Foundation

The Playwicki Farm Foundation was created in September of 1996 as an independent, 501(c)(3) non-profit tax exempt corporation, to raise money for charitable, education and scientific purposes. The funds are to be used for the repair, replacement, maintenance and preservation of Playwicki Farm and the development of educational programs.

Throughout the year, the Foundation has events that help with our fundraising efforts. Giving to the Foundation helps to support the operation of the farm foundation, as well as provide the financial resources for educational programs and other events and activities.
